

M A R C H 2006

What's up?

After some 120 shows in 30 countries with Therion & At Vance, 2006 will be spent mostly in Sweden ...

The new Therion album will be recorded during the spring, and there are more songs to be written with Snowy Shaw before we give birth to S&M.

✕ Open your mind ✕

Some people seem to think that one shouldn't be involved in certain kinds of musical projects, I agree to disagree...

In 2002 I participated in the Eurovision Song Contest in Sweden, singing backing vocals. This year I'm doing it again with some friends of mine, The Poodles.

I know some conservative rockers that think it's all crap and so on, but I can tell you guys one thing: it takes a lot for these acts to make a good performance knowing there are 3-4 million people watching and criticizing their every move.

It's the biggest production of the year in Sweden with around 200 people on&off stage working to get it all right, they impressed me every day with their professionalism. Not to mention

all the great parties during the four days, it's all good...

It's also kind of healthy to meet other people in the business that don't know much about you or your music -it puts yor ego in perspective, haha...

The Poodles actually made it to the swedish finals in Stockholm. On the 14th of

March it starts all over again and on the 17th we play the Globe arena with 13000 people in the crowd - I told you... it's all good!

Mats

Shows
