# 2006 WINTER WAVE

November sucks...

### WHAT'S UP...

Snowy stayed at my place for a couple of days. We were DJ's at a Halloween party (left pic.) Snowy was also in charge of a Therion photo session the following week.

I've been writing some songs as well for other artists, hopefully they get released next year.

### THERION

Gothic Kabbalah's out in January 2007, the promo's already out on the internet ha ha...

Hope fans dig the new line-up, both on record & stage.

Picking songs for the tour might be a tough one though...a lot of good stuff on the new album.

### KRUX

The release party got canceled. We play the Hard Rock Café with Crucified Barbara on December 16th instead. Tickets include a cd with either band.

Right now we have 3-4 shows lined up for the first half of 2007. A couple of those are festivals in Europe, looking forward to it.
